LA County Central Committee

Ballot Explained *

- Your candidate selection influences the direction of the party (i.e. endorsements, registration of new voters)
- These unpaid elected positions only make up part of the county central committee – appointed members and party members who already hold city, county or statewide office make up the rest
- All six of CA's political parties can elect political party committee members every 4 years
 - Only Democratic and Republican candidates made the 2024 ballot BECAUSE they had more than 7 candidates running
 - If there are fewer than 7 candidates, then all the qualified candidates automatically get a seat
